North Carolina Projects

KELLY CONTRACTORS moves earth on small and large projects in across North Carolina. We specialize in site development projects with demanding requirements. And we do the work on time.

Our cross trained field crews are capable of using the best suited site development equipment for the highest quality execution requirements. In addition, we supply GPS services on equipment, point locations, and elevations as necessary to insure that all activities down stream of site preparation have an excellent base to build from.

We offer our services throughout the state of North Carolina
